Give the gift of European Ozone Facial – the best facial for both men and women!

Nooshin K. Darvish, ND, ABAAHP

December 18, 2016

Ozone facial therapy, originating from Europe, returns your skin to its youthful glow and appearance without fillers, chemicals, or Botox. Completely natural, using a stable form of oxygen, ozone therapy provides complete skin rejuvenation, reducing fine lines and wrinkles, clearing acne and blemishes and discolorations, and stimulating skin collagen growth.

Ozone has powerful regenerative and rebuilding capacities as well as strong anti-microbial effects, making it a fantastic internal as well as external therapy for various skin conditions including mild to severe acne, hyperpigmentation, sun-damaged skin and signs of aging in both men and women.

While laser therapies and chemical peels thin the skin over time, ozone therapy does the opposite and rebuilds the skin. Using painless French mesotherapy techniques, ozone is gently injected just underneath the most superficial layer of the skin. The skin turns temporarily slightly red for a few minutes as circulation increases, bringing healthy blood and nutrients to the skin. Over the next few days and weeks, the skin begins to heal its wrinkles, fine lines, and infections, as the body replaces its damaged skin with new baby skin. The result is youthful skin with a healthy glow.

Depending on the severity of condition, 2-6 sessions may be necessary for optimum results, usually performed at one month intervals. Each session takes approximately 30 minutes. Best of all, there is no down time.

One of the best skin rejuvenation facials for both men and woman, ozone facial therapy is a fantastic gift for this holiday season.

Please call Holistique to purchase your gift or gift card for your special someone (425) 451-0404.
