SPECIAL EVENT June 13th
Early Cancer Detection Test Event

June is National Cancer Survivor Month, and this year, Holistique is excited to offer a *special opportunity for our Holistique community and their friends.*

On **Friday, June 13th, at Holistique**, Grail Labs will be offering their unique early cancer detection screening test, the Galleri test, at a significantly discounted rate, along with a s**pecial offer from Holistique**.

Galleri is a first-of-its-kind multi-cancer early detection blood test with a high sensitivity for detecting **50+ types** of cancers. For example, 83.7% of pancreatic cancer or 93.5% of liver and bile duct cancers, and 83.1% of ovarian cancers are detected early using this test, so treatment can be instigated much sooner for better outcomes. Galleri uses a simple blood draw.

(Note: Galleri is designed to complement, not replace, other recommended screenings like pap smears, imaging, colonoscopy, etc. Galleri is not an appropriate test if you have had a recent diagnosis of cancer.)

The Galleri test is recommended for anyone at an increased risk of cancer, those over the age 50+, or earlier with family history or other risk factors.

A SPECIAL OFFER FOR YOU FOR JUNE 13th

Because Galleri only became available recently, it is not yet covered by insurance and typically costs $949. Since you are a member of the Holistique community, Grail has agreed to offer our
